

Can a dry country become famous for its mineral water?
How long will it be before we start producing components for Formula One cars?
Will wood still be used for manufacturing furniture in 2048?
Can we promise uncompromised quality across all product lines?

WE HAVE THE ANSWERS BECAUSE WE ASK THE RIGHT QUESTIONS.

At The Zubair Corporation, we believe in making things possible. It is this confidence, this commitment that has won the trust of our people and our customers.

Taking us from a small enterprise in 1967 to one of the leading business conglomerates in the Gulf, and helping us to play a major role in building a modern and progressive Oman.

In our search for new goals and in our journey towards the future, we will continue to pursue the same path, share the same vision and find the answers by asking the right questions.

Walk hand in hand. Go forward together.
